

## Approved Adoptive Parent Education

Children's Hope is pleased to offer this Adoption Parent Education opportunity – "Heart of the Matter Seminars - *Because They Waited*" DVD set (10 hours of Hague Compliant Adoption Training) and online testing instructions, as well as the EMK press book entitled Adoption Parenting Creating a Toolbox, Building Connections. The first week of the month, following the month in which you finish taking all the online tests, Heart of the Matter will provide CHI your testing results. It is strictly voluntary for any family that submitted an application prior to January 2007 to purchase this set. You still must complete the required parent education. We think that this set will provide you with informative pre and post adoption education. The cost of this set is \$100, which includes shipping and handling.

**Please print this form, clearly print in the spaces provided  
and mail to Children's Hope International.**
